Coming, Monday, Sept. 17—"Surreal and Son," one of the Best of Pictures.

RECOGNITION OF MOTOR CAR VALUE.

Great volume in the highly competitive motor car market of to-day is recognition and acceptance by true buyers that a motor car has value. Continued and ever-increasing success demands enduring value, trustworthy performance, and attractive appearance. These have been achieved by Buick through the use of fine materials and adherence to the highest of manufacturing standards.

Attainment of the two millionth mark is a noteworthy accomplishment in any motor car field; it assumes great proportions when considered in terms of a car of Buick calibre—a car which has won world-wide acceptance as the standard of comparison among fine motor cars.

Give thought, for a moment, to the deeper, more significant phases of this Buick achievement.

The world's purchase of two million Buicks represents the world's tribute to Buick quality of almost \$600,000,000.

Motorists purchased the first million in twenty years, and the second million in four years—striking proof of the public's recognition of Buick merit.

The two million Buicks have travelled scores of billions of miles—almost four million times the distance round the world.

And to-day, fully 1,500,000, or 75 per cent. of all the Buicks produced during the last 24 years, are still serving their owners.

These facts constitute an unrivalled record of popularity, reliability and stamina—a record that becomes still more impressive with each new Buick that goes forth upon the highways of the world.

Buick's success is due to Buick's policy of progress—a policy to give the public, without delay, the benefits of advanced engineering development.

The past year has been Buick's biggest year. More people have purchased Buicks during this period than during any previous 12 months. Buick volume, like Buick value, has risen to a new high mark.

By Order,
J. J. HACKETT,
Town Clerk.

Help the Hospital

Our readers who trip the light fantastic will note with interest that the Prince Albert Branch of the G.U.O.O.F. is holding its annual Hospital Ball in Burrawang School of Arts to-morrow night (Wednesday).

A good orchestra has been engaged (Messrs. E. Waples, piano; H. Jackson, violin; A. Holland, cornet; and Dusty Booth, drums), which will give all that can be desired in the way of music. An excellent supper is to be provided and combined with the fact that all proceeds go to the Berrima District Hospital, we hope to see a large attendance from Bowral and surrounding districts.

(Published by Arrangement).

The Marketing Act

ANOTHER BOARD AROUND THE FARMERS' NECKS.

October 5 will be a fateful day for the butter men of this State, because on that day they will be asked to say whether they prefer to remain free, possessing all the benefits attachable to the freedom, or whether they are prepared to become conscripts or cogs in a machine the labored workings of which will sooner or later destroy them and put back for many years the progress of their industry. The latter will be their fate if they vote Yes for the bringing in of their produce under the Marketing Act, while they may preserve their freedom, and the right to barter and sell their product, only by voting No on that day.

Once the required number is obtained at the poll, a Board will be at once formed in whom butter immediately vests directly it drops from out of the churn. The butter men and the factories manufacturing cease then to possess any property in that butter, ownership being changed to only a bare money claim. Five members will be elected by the producers and two will be nominated by the Government. On the surface, producers' representatives would appear to predominate on the Board, but even if the weight of numbers is on the producers' side, that does not get away from the fact that the decisions of the producers' representatives may be paralysed if not directly negated by the Government nominees who will have first call on the Minister and thus will be able to block any decision or action suggested by the producers' representatives. In addition, being the guardians of the consumer's interests, it is quite conceivable that many times the decisions and actions of these Government nominees will be directly opposed to the producers' interests since the former represent the buying and the latter the selling interests. Though it has many times been claimed that the Board, when elected, will not be a Government board, yet it must be remembered that the Minister for Agriculture, through his nominees, will be able to dominate the position and force the producers' representatives, more or less, to work according to his way of thinking; yet it has been said that the Board will represent the producers only. If one wanted a finer example of governmental control and interference one would not have to go further than the recent exploits of the Minister for Agriculture, who, dealing with the proposed wheat poll, there, even before the poll had been taken, Mr. Thorby stated that he had arranged the necessary finance for the poll from the Commonwealth Bank, but when the position was scrutinized it was found, much to the disappointment of ardent politicians that the arrangements so made compared very unfavorably with, and were much inferior to those obtainable under ordinary conditions in a free and open market.

The Board when elected may either sell through the ordinary channels of business or it may elect to itself sell the whole of the output of the State. This for the season 1928-29 was valued at over \$8,000,000. In the former case beyond a pale semblance of control all the Board can do will be to collect sitting fees which fees will be supplied by the butter men. Thus there will be further widening of the gap that yawns between producers and consumers and a further whittling away of the farmer's already small margin of profit. On the other hand should the Board elect to handle the whole of the State's output of butter, it is not difficult with the benefit of past experience of wheat pools and similar economic experiments to anticipate what this would mean to the producers. In the first place it would be necessary to set up a huge selling organisation capable of handling the whole of the States output. Such a step would involve a terrific expense to the butter men since a huge staff of managers, clerks, etc., would have to be employed, the payment of which would have to come out of the butter sold, and yet we are told that expenses will be saved once this Act is accepted by the farmers. In the second place such a Board would be lacking in that requisite knowledge of commerce and commercial routine and before long a hopeless state of confusion would prevail, while the monetary losses would be stupendous. Whichever method is adopted the butter men will find that the Board is incapable of dealing with what is the biggest trouble in the butter industry—the regulation of inter-State trade. To justify their existence producers' representatives will be forced to raise the local market above safe levels, and the supporters of the Act are pointing to what Queensland has done in that direction, but they never mention the fact that in so doing that State has sacrificed a very large proportion of her local trade to the imported butters of other States. The desire to gratify their constituents will force the Board to place the local price at a figure which could easily be undercut by both the Victorian and Victorian exporters consequently instead of New South Wales consuming two-thirds and exporting the balance of her production the ratio would be reversed, thus causing the butter men to lose their most favorable market. It is useless for the supporters of the Act trying to dodge this issue; the Board will have no power to prevent the flooding of this State's markets with inter-State butter and the last state of the Butter men as a consequence will be far worse than it is now. If, therefore, they want to continue along the safe paths of progress and if they are wise enough to look with suspicion on anything that smacks of Government control in marketing let them remember the advice recently given by the Prime Minister when he told the farmers to beware of Government marketing. If they did not, he told them that their pools would be worth little to them as the politicians are always on the side of the biggest battalions—the consumers. That is one of several important reasons why the butter men of this State should vote solidly No on 5th October.

TENDERS.

TENDERS are invited for ALTERATIONS and ADDITIONS to the Gallery at the Theatre Royal, Moss Vale. For plans and Specifications apply to

T. MACK,
Theatre Royal,
Moss Vale.

FIRST GRADE.

Bowral beat Robertson, 14 to 8.

SECOND GRADE.

Moss Vale beat Berrima 6 to 5. Full report next issue.

SOCCER.

BERRIMA FIRST WINNERS OF BURCHELL CUP.

The first match for the Burchell Cup was played between Bowral and Berrima on Centennial Park last Sunday, and resulted in a victory for Berrima by 2 goals to 1 after a strenuous game, which will be more fully described in next issue.

Mittagong Council

Present: The Mayor (Ald. Terry), and Ald. King, Ailey, Stevenson, Worner and Evans.

Accounts amounting to £537/8/11 were passed for payment.

On motion of Ald. Stevenson and Evans, it was decided that a minimum charge be imposed upon all users of electrical current.

The Main Roads Board stated in reply to Council's request for proclamation of Lyell Street, Bong Bong Road, Fitzroy Street and Kangaroo Road as main roads, that the Board purposes postponing for a time the consideration of all requests for proclamation of new roads, as the pressing need for some time to come will be to assist the many Councils with a view to arranging systematic maintenance of existing main roads.

Mr. C. N. Lee forwarded plan of proposed closing of streets at Lake Alexandria and the opening of a new street between Queen and Alfred Streets and asked Council to make necessary application for such opening and closing of roads.

Ald. King thought it would be better to buy Mr. Lee's land than for him to dedicate it as a road.

Moved by Ald. Stevenson and King "That Council is not prepared to incur any expense in regard to this scheme, but is prepared to again meet Mr. Lee on the ground." Carried.

The Federal Capital Commission, Canberra, wrote agreeing to supply 50 holly plants for beautification purposes.

Complaint having been made that all the Council's carrying was given to one man, it was resolved to inform the complainants that preference must be given to unionists and returned soldiers.

Ald. King having complained that all correspondence was not placed before Council, it was decided that all departmental letters be placed on the table in future.

It was agreed on the motion of Ald. Evans and Worner, that a letter be sent the Main Roads Board asking that the reconstruction of the main road be not stopped at the Soldiers' Memorial but continued on.

Matters relating to the Main Roads Board and the Camping Ground are reported under other headings.

MARKETING OF PRIMARY PRODUCTS ACT, 1927.**POLL OF PRODUCERS OF BUTTER.**

A POLL OF PRODUCERS resident or carrying on the production of Butter within the State of New South Wales will be taken on Friday, 5th October, 1928, on the question of constituting a Butter Marketing Board.

Persons qualified as producers under the Marketing of Primary Products Act, 1927, as amended by the Marketing of Primary Products (Amendment) Act, 1928, who are associated, in accordance with the Act, with the supply of cream for the manufacture of butter to a factory registered under the Dairy Industry Act, 1915, are entitled to enrolment to vote at the poll.

To facilitate enrolment preliminary lists of producers grouped in State Electoral Districts will be on exhibition at butter factories and other convenient centres, from 3rd to 17th September, within which period claims for enrolment or objections to enrolment may be lodged with the Returning Officer, the Director of Marketing, State Marketing Bureau, Department of Agriculture, Sydney.

Forms and further information may be obtained at each centre.—H. V. C. THORBY, Minister of Agriculture. (E. 9611).

TRUST MONIES TO LEND on approved Freehold Security at Lowest Current Rates of Interest.—H. M. O'LEARY, Solicitor, Bowral.

VACANCY for Boarders or Rooms To Let.—3/7, Mail Office.

WANTED, House-parlor Maid, Refs. Tel. 206, Mrs. Bromley, Burradoo, doo.

WANTED, Reliable Girl for General Housework, Little Cooking, no Laundry, small Family. Apply, Mrs. Gordon Bray, Tewhara, Queen Street, Bowral.

W. STOKES AND SONS, Motor Funeral Directors, Victoria St., Bowral. Phone 87 day or night.
