Ambulance Service

The number of cases attended by the Berrima District Ambulance Service for twelve months ending 30th June, 1934:—

Medical and Surgical	355
Major Accidents	147
Minor Accidents	383
Transports	121
Grand Total	1006

Miles travelled by Ambulances during the period, 10,769.

Summary of cases attended during July:—

Medical and Surgical	35
Major Accidents	10
Minor Accidents	34
Transports	10
Total	89

Miles travelled by Ambulances, 1054.

Cricket Fixtures

ASSOCIATION MATCHES ARRANGED.

At the annual meeting of the South Coast and Tablelands Cricket Union at Kiama recently, the dates on which inter-Association games will be played, were set down.

Owing to a general misunderstanding concerning the rules governing it, last year's competition, which was won by Illawarra, was declared null and void.

A new set of rules was adopted and the various Associations will be furnished with copies of them before the season commences.

The Moss Vale and Southern Districts Association will play Kiama at Moss Vale on Boxing Day, and Gerringong at Gerringong, on New Year's Day.

Moss Vale, Gerringong and Kiama will contest one division and the winner will play the successful team in the Shoalhaven-Illawarra division on Easter Saturday.

Play in each match will commence at 10 a.m. and conclude at 6 p.m., with a luncheon adjournment from 1 p.m. to 2 p.m.

An Awful Blunder

MITTAGONG BEAUTY SPOT LABELLED "BOWRAL."

INDIGNANT ALDERMEN.

There is burning indignation in Mittagong. A Sydney paper has labelled a local beauty spot "Water Mirror at Bowral."

A while ago a more important city paper labelled Fitzroy Falls as being in the Blue Mountains, but most folk smiled at the error.

Mittagong takes its beauty spots more seriously, however, and her aldermen are talking of "further action" if the careless paper doesn't apologise (to the pool?) for its error. Just what "further action" is possible was not disclosed.

At the meeting of Mittagong Council on Tuesday night, the Mayor (Ald. Browne) read a letter which he had instructed the Town Clerk to write to the paper concerned with a request that the photo be re-published with its correct title and an apology.

A letter was received from the paper concerned stating that as a great deal of work was entailed in the preparation of the supplement it was impossible to again publish the photo. The paper would be pleased to publish any other photos of the scenic beauty of Mittagong if the Council possessed them.

The Mayor said Mittagong had suffered under disabilities before and should not be content with this somewhat evasive and contemptuous reply. The neighboring town was not responsible for the error, but the paper which had published the photo. If Ald. Stevenson was reported as being dead he would naturally ask for and receive an apology. (Ald. Stevenson: That would be a national calamity.)

Ald. Downs said the paper should be called upon to re-publish the photograph which they had made the mistake with.

Ald. Terry said a man in Mittagong was very annoyed about the matter. He had received a cutting of the paper with the photo from Nimmitabel, with the request that he go to Bowral to visit the spot.

Several aldermen said the photo had been sent by a Mittagong resident who had entered into a competition some time ago, and they could not understand how the error had occurred.

Ald. Solomons moved that the paper be asked to publish an apology and failing this course further action be taken by the Council.

Ald. Worner seconded the motion, which was carried.

Represented by Mr. R. E. Clark, F.I.O.

Empire Pictures

The Empire Theatre, Bowral, will screen "F.P. 1" on Saturday and Monday next. Conrad Veidt, Jill Esmond, Leslie Fenton and Donald Calthrop have featured roles. "F.P. 1" is an unusual picture of an aerial landing ground in mid-Atlantic. We see a young inventor striving to bring his inventions to light; we see him succeed by the ingenious plot of a friend; we see his hopes achieved, a huge floating platform constructed and floated in mid-Atlantic. We are shown an organization, sinister in its dealings with an object to wreck the floating island. We see the platform slowly sinking with its occupants gassed, and we see a fine climax.

"Baby Takes a Bow," the supporting picture, features little Shirley Temple, aged four, in an exciting tale of the hair-raising adventures which follow the "planting" of some stolen property in the apartment of an innocent man (James Dunn). The part of his wife is played by Claire Trevor.

At the matinee, "F.P. 1" will be screened.

Dangerous Action

WALKING ON ROADWAYS.

The dangerous practice of pedestrians walking along the Hume Highway when footpaths were provided for them was discussed at Mittagong Council on Tuesday night.

Ald. Solomons asked who would be responsible if a person walking along the road was struck by a motor car and fatally injured?

Ald. McFarlane said that in a case in Drummoyne some years ago it had been held that a pedestrian had as much right to the road as a motorist provided he observed the rules of the road.

Ald. Solomons said if anyone drove along the main street, where there were good footpaths, they would see people walking along the middle of the road. Something should be done before some person received serious injury or was killed. On wet nights when visibility was poor, it was almost impossible to see pedestrians whether a car's lights were powerful or not.

As it was understood that the Police and the Council were powerless to act in the matter, no action was taken.

It is a curious coincidence that the District Coroner (Mr. S. R. Musgrave, J.P.) after conducting an inquiry at Wollongong last week into the death of a man who was fatally injured by a bus while walking along the Princes Highway, exonerated the driver of the bus from all blame, and added the following rider to his verdict: "I direct attention to the very great danger to human life which exists owing to pedestrians being compelled to travel the roadway between Corrimal and Wollongong which is used for swifter moving traffic, and suggest that an effort should be made to provide a well-defined footpath between the two centres."

Eastern Markets

FARMERS DESIRE DEVELOPMENT.

At a meeting of the Bowral Branch of the Primary Producers' Union on Wednesday afternoon, the question of finding further markets for the export butter trade was discussed.

The Secretary (Mr. S. G. Churchill) moved that the Branch urge upon the Central Executive the urgent necessity of expanding the export trade butter and recommend that a strict inquiry into the possibilities of the Chinese markets be instituted.

The home market, said Mr. Churchill, was rapidly expiring. A recent report he had read had stated that some time ago the margin between Australian butter and Danish butter was 40s., but at the time the report was written it had dropped to 10s., and was still decreasing. Danish butter was the biggest drawback to the Australian export trade. It would appear that when the difference between the prices became still less, Australian butter would be pushed off the market. He had fought hard for the equalization scheme so that the farmer could maintain his home price for butter. On a visit to the P.D.S. in Sydney he had seen a large quantity of butter being shipped to the East. China was expanding rapidly and there must be a market there.

Mr. Shiels said the Chinese market would probably desire a cheap butter and exploiting it would only lower the price.

The President said that Mr. Latham's report following his Eastern tour seemed to favor the possibilities of trade with the East.

Mr. L. Menzies, in seconding the motion, said it was only by trying that they would get anywhere.

The motion was carried.

Woods' Great Peppermint Cure
For Influenza Colds.

On Starvation Pay

MEN ON BOWRAL SEWERAGE.

At last meeting of Bowral Council, Ald. Venables said that the men on the sewer had only worked about five days in the last fortnight on account of wet weather. They would have to stand off for the next fortnight. The plight of the men was a matter of urgency and they were on starvation pay. It was time the Council took the matter up with the Government and told them what they thought of them. A deputation had been sent to Sydney on a matter which concerned the Government and had got an immediate reply, but because this was a matter in which the Council was concerned, nothing had been done. He moved that the Government be again written to and asked for an immediate reply.

The motion was carried.

Federal Election

HON. T. D. MUTCH.

U.A.P. CANDIDATE FOR WERRIWA.

Mr. T. D. Mutch, who has been selected as U.A.P. candidate for Werriwa, should carry the flag to victory. Although still a young man, Mr. Mutch has had wide political experience and has shown on more than one occasion that sturdy independence which characterises the intellectual man. His fight against his old-time leader, Mr. Lang, will be remembered, as will his masterful administration of the Education Department during his term of office there. A close student of the times and an ardent Australian, Mr. Mutch has already left his mark upon the history of the State and should go still further in the wider sphere of Federal politics.

Mr. Mutch has been Minister for Education, Minister for Local Government, Chairman of the Journalists Association, and is a Trustee of the Public Library and of the Mitchell Library, and an alderman of Randwick. He is the elected Patron of the R.S.S.I.L.A. in his home suburb and has been associated with many movements for the advancement of the community.

The new boundaries of Werriwa give the U.A.P. an excellent chance of again winning the seat, and no better candidate could have been secured than Mr. Mutch, who is already engaged in his electoral campaign. He has the powerful assistance of Mr. M. F. Morton in the Wollondilly portion of the electorate.

Cycle Club

ALLPORT WINS RACE.

L. Allport won the race conducted by the Mittagong Cycle Club from Mittagong to Cutaway Hill and return on Saturday. He started off with two minutes start on the scratch men and was followed by the veteran rider Charlie Smith, who ran a close second from the four-minute mark. J. Blacker (2½ min.) was third.

There was an exciting finish between the four scratch men for the fastest time honors, and H. W. Evans won by a quarter of a second from A. Morris and T. Stafford, with R. Gilham half a second away in third place.

The winner of the race covered the distance in 25 minutes 3 seconds, and Evans, who gained fastest time in 24 minutes 40 seconds.

The race on Saturday will be to the Wombeyan Caves turnoff, through Mittagong to Colo Vale and return. The handicaps are:—A. Evans, T. Stafford, A. Morris, R. Gilham, scr.; R. Nankerville, 45 secs.; J. Blacker, 1 min. 45 secs.; L. Allport, 1 min. 45 secs.; H. Chilcott, 3 min.; G. Carthew, 4 min. 30 secs.; W. Briggs, 5 min.; W. South, J. Sheedy, C. Smith, 6 min.; J. Armfield, 7 min. 30 secs.; C. J. Smith, 8 min. 30 secs.

My true love she is handsome,
My true love, she is young,
Her eyes are blue as the violets' hue,
And silvery sounds her tongue.
My true love's famous father
Is a noted entrepreneur,
Who always takes for a cough or a cold
Woods' Great Peppermint Cure.

Bus Stands

FIXED BY MITTAGONG COUNCIL.

At a meeting of Mittagong Council on Tuesday night, Ald. Terry said that the buses which brought the children back to Mittagong from the Bowral High School, stopped alongside the War Memorial. The children rushed from behind the bus and an accident had only been narrowly averted on several occasions.

Ald. Solomons said that on one occasion the driver of a vehicle had to pull up so quickly to avoid running over a woman, who had alighted from the bus, that he had received severe shock and had only been able to proceed after a rest. He moved that incoming buses pull in on the northern side of Hume Highway near the Commercial Bank to discharge passengers, and that outgoing buses stand in Hume Highway between Ward's Lane and the Fire Station.

The motion was carried.

Mittagong Council

Present: The Mayor (Ald. Browne) and Ald. Downs, McDonald, MacFarlane, Solomons, Stevenson, Terry and Worner.

The Local Government Department wrote that the Main Roads Department had brought under its notice the outstanding instalments of interest and capital on Main Roads loans.

The Mayor said he had written to the Local Government Department and pointed out that the Council had previously advised the Main Roads Department that provision had been made in the estimates for repayment and that three payments each of £100 had been made. Further payments would be made as funds became available.

The action of the Mayor was endorsed.

The Mayor said a painter had been on the relief work and he had taken the opportunity of having the band rotunda repainted.

Ald. Worner said he must congratulate the Mayor on the improvements to Alexandra Park. It was looking very nice at the present time.

The Mayor said a large amount of credit was due to the Curator (Mr. A. E. Boswell) and Ald. McDonald.

After some discussion it was decided to inform Mr. Zantes that no rebate could be allowed on his bill for electricity.

The matter of erecting a street light in Etheridge Street was referred to the Electricity Committee for report.

On the recommendation of the Building Inspector, permission was granted for the erection of a weatherboard cottage in Alfred Street and a storage shed in Bowral Road.

Mr. H. D. Beer wrote that a nuisance was being caused by drainage water flowing onto his property from Mrs. Snowden's land.

The Health Inspector reported that Mr. Beer had previously put in an absorption trench on the boundary of his property. The trouble was caused through the lie of the land.

It was decided to refer the matter to the two parties concerned.

The Curator forwarded a detailed list of prices of roses and shrubs and recommended that £9 15s. be spent on them for planting at the Sports Ground and Alexandra Park.

Ald. Worner said the finances were low but the ground had already been prepared for the plants. Since the Council had had a Curator, a great deal of improvement had been made to the beauty of the town.

The Mayor said provision had been made in the estimates for expenditure on the Parks and Reserves.

Ald. Stevenson said he was in favor of beautifying the town but utility should come before beauty. People wanted better footpaths and roads and they should be the first duty of Council.

It was decided to purchase the roses and shrubs.

Mr. Mark Morton, M.L.A., wrote that he had interviewed the Public Works Department and had been informed that at the earliest the filtration plant would be in operation at the end of August.

The Electrical Engineer said he had interviewed the Department in Sydney that day and the balance of the electrical equipment would be forwarded before the end of the week.

Council decided to make representations to the Railway Department with a view to obtaining permission for passengers to board the Melbourne Express at Bowral and Mittagong.

The Mayor and Ald. Stevenson were appointed delegates to the Local Government Association Conference at Goulburn in September.

No Money for Sewerage.

Mr. Mark Morton, M.L.A., forwarded a letter addressed to him by the Minister for Local Government stating that with regard to his representations on behalf of the Wingecarribee Shire and Mittagong Councils for a loan for sewerage works, no money was available by way of grant or loan at the present time. The matter was one for consideration by the Public Works Department.

The Mayor said the letter came from the Local Government Department as a result of representations made by Mr. Morton and himself. It did not affect the position of the Mittagong Council in any way, and merely informed the Council that the approval of the Local Government Department to carry out sewerage works was not necessary.

Leave was granted to the Health Inspector to attend the Annual Conference of Health Inspectors in Sydney in September.

A letter from Quirindi Council asking co-operation in an endeavor to make travelling salesmen retailing goods to the public at sample rooms in country towns pay a licence fee, was received, and no action taken.

The Works Committee was instructed to inspect the main street in front of Mr. C. James's property with a view to alleviating the trouble caused by water.

The Mayor, in answer to Ald. McDonald, said the stone for repairing the boxing near Evans's garage had been obtained, but owing to a breakdown to the roller the work had been delayed.

The Mayor made a note of several streets requiring attention with a view to carrying out work on them as soon as possible. He remarked that Council already had a program of work which was two weeks ahead of the men.

On the motion of Ald. Solomons it was decided to write to the Postal Department and ask it to remove the brush which had been cut down and left at the side of the Bowral Road when the lines had been cleared.

Cheese Factory

ROBERTSON COMPANY TO BE FORMED.

Mr. A. G. Hunter, of Robertson, is not easily deterred. Three years ago he mooted a scheme to establish a cheese factory at Robertson. At that time butter was a far better paying proposition than it is now, and the farmers turned down the proposal.

Two years ago Mr. Hunter tried again, and the scheme met with the same fate.

This year a third attempt was made, and now that butter is at such a low price, the farmers are taking a keen interest in cheese.

The object of the company is to manufacture into cheese only the surplus milk—they do not intend to interfere in any way with the milk called up by the Milk Board.

So far, the company has been promised support by forty suppliers, but the Directors or Secretary would be pleased to receive applications from any other intending suppliers. Early application is desired so that the capacity of the equipment may be arranged.

It is estimated that on the 365,000 gallons of milk per annum converted into cheese, the suppliers would receive £2750 more than if the same amount of milk was converted into butter on the present market prices. This additional money coming into the district must greatly improve business.

The Society has been formed, a Board of Directors and other officers elected, and a site for the factory has been chosen.

The Directors hope to have the factory erected and ready to operate by the spring, and enquiries made by farmers in districts adjacent to Robertson indicate that they are now keen to better their position. Instead of making arrangements to treat 365,000 gallons of milk per annum it will be necessary to arrange for treating a much larger quantity.

Anyone interested can obtain full information from the Secretary (Mr. F. R. Curtis) or any of the Directors whose names appear on the prospectus.

SHIRE OF WINGECARRIBEE.

TENDERS—MOTOR TRUCK.

TENDERS are invited and will be received by the Council up till 12 noon on Monday, 20th instant, for the supply complete of one Motor Truck approximately 30 cwt. capacity fitted with tipping body. One of the Council's old trucks is to be traded in against this purchase.
