

The photograph above is of the home at Sunset Point, Mittagong, now nearing completion for Mrs. R. Gilham, a war widow, and her children. It has been built as the result of the efforts of the people of Mittagong in financing the project, and its construction has been carried out by local residents as well as men in the building trade from Bowral. The Nattai Bowral Repatriation Committee was approached by Mrs. Gilham for a loan from her husband's deferred pay, to improve the cottage in which she was then residing. The committee decided that her cottage was not satisfactory and took further steps in the matter. A block of land at Sunset Point was donated as a building site, and the committee, with the assistance of local traders, obtained the necessary building materials. Voluntary workers have now brought construction of the house to the stage where it will soon be habitable and Mrs. Gilham will be able to occupy it. The building is a tribute, not only to the generosity of the people of Mittagong, but to the tradesmen and local workers who have devoted practically all their spare time to its construction.
